Death Rate at Molokai Increased By Malarial Fever and Not By Starvation.

Poi is scarce in the Islands and especially so on Molokai. The Board of Health had this brought forcibly to its attention by the receipt of a letter from the Leper Settlement, wherein a com-Wm. G. Arwin, mittee of the sick ones declared that they had been without poi for two weeks and that without it they would die. A translation of the letter was published in the Advertiser on Tuesday morning. The Board decided yesterday that every effort should be made to se-SAN FRANCISCO AGENTS - THE cure poi made from taro for these peo-NEVADA NATIONAL BANK OF ple, but that if it could not be obtained. flour-poi should be sent in as large quantities as possible. Executive Officer Pratt stated yesterday that he had canvassed Honolulu and vicinity and taro was not to be had in large quantities. A few bags here and a few bags there were all that he could lay his hands on.

Superintendent Reynolds of the Leper Settlement stated in reply to the accusations made against him by the com- utive officer of the board. mittee of lepers that Ambrose Hutchison was at the bottom of most of the trouble which arises at the Settlement. Furthermore, Reynolds said he had explained to the people the great difficulty of procuring poi nowadays and urged or anyone having business to transact them to accept rice, bread, flour and with any inmate, may obtain from the other edibles in place of it. He declared that 90 per cent of the people had accepted his explanation and were apparently satisfied.

As to the meeting of the few discontented ones, he said it was not largely attended and although Hutchison had engineered the meeting, he did not have the stamina to place his signature to the open letter. The contract for supplying the Settlement with poi was held by a native on Molokai, who began to show signs that he could not supply it sion is authorized by a vote of the as long as a year ago. For several Board of Health. weeks at a time he was unable to fill his contract and tare and poi had to be supplied by others. At the end of last year the contractor, who it seems is under no obligation to the Board for failure to provide, announced he could Office at bank building on Merchant procure no more taro. Thus the Settlement met with a sudden shortage. The death certificates, if compared with the corresponding months of former years, would show no decided increase as was intimated by the petitioners. Malarial fever has caused the majority of deaths in the past six months. "We have been running along the

best way we can," said Reynolds. "We have tried all over the Island of Oahu to get poi and none is to be obtained. The majority of the natives don't see real poi now. It is flour-poi and takes the place of the other very well. They live almost entirely on this substitute In March we will again be able to supply their demands from the Molokai taro. There are a few soreheads at the Settlement, Hutchison being one of them, and he is the man responsible for this trouble."

When it was proposed by the Board pains, by consulting o post in the Settlement an explanation of the difficulties encountered Mr. Dole said he did not believe it was the best plan for the Board to enter into a discussion of the question with the Settlement people. The Board would use every endeavor to furnish poi when it could, and if not, would send the next best thing. The president pro-tem On Fixed Deposit for 12 months, 4 per thought it best under the circumstances to lay the matter on the table, which was done.

As to Hutchison's statement relative On Fixed Deposit for 3 months, 2 per to Superintendent Reynold's mismanagement of the Settlement, that officer arose and said: "It is entirely a falsehood. The statement is absolutely untrue that I took those half-drowned sailors into a coffee shop and gave them leper-prepared coffee. These men were sized and I got them and told them to come with me and I would get them some coffee and dry clothes. Evidently there was a misunderstanding, for after came out of the store with the clothes found them coming out of the coffee shop. Whether they had coffee or not I don't know. I would not have allowed it had I known it in time. I was wet myself and I told them to come with me and I gave them blankets, clothes and whiskey and kept them for a day and all that night."

The Board was satisfied with Mr. Reynolds' explanation and nothing more was said concerning the incident. A petition from the lepers was also read in which the voters asked that Representative Beckley and Sol. Ka-

waihoa be allowed to visit them. The etter read: "We, lepers who have the right of suffrage, hereby submit our humble peition to the Board over which you preside that the right of entrance to this Settlement for business purposes be given to the Honorables F. W. Beckley and Sol. Kawaihoa in accordance with

of Health on the 4th of January." Mr. Lowrey said that if proper arangements could be made at the Settlement for the reception of visitors the permission might be granted, otherwise not. He then presented the Board with the following rules to govern visitors to the Settlement and other matters,
